

SELECT YOUR EDGE

The first step is selecting your edge design. The three factors to consider when choosing the perfect edge are design style, function and safety.

- 

BASIN 3 CM
 Classic and traditional, this edge adds an elegant touch to any design.
- 

BOULDER 3 CM
 This stylish edge provides elegance to any traditional space. Both stylish and sophisticated.
- 

PIEDMONT 3 CM
 This classic edge has the rounded top of a bullnose, but a sharper edge on the bottom and works with any style.
- 

VOLCANIC 3 AND 6 CM
 Its rounded edges are easy to clean and safe making this a great choice in houses with small kids.
- 

MORAINE 3 AND 6 CM
 A natural, rustic appearance, this hand finished "Broken" edge provides a raw look.
- 

CRESCENT 3 CM
 With a shallow radius edge this style provides flare to any clean and simple kitchen design.
- 

SUMMIT 3 AND 6 CM
 With a hint of a round edge, this simple design is a child friendly selection for any room that needs a linear form to complete a design.
- 

TREELINE 3 CM
 This classic angled shaped edge, also known as a bevel is popular in transitional kitchens.

- 

RIMROCK MITER
 (CUSTOM SIZES)
 This two piece edge brings a sleek modern look to a heavy/thick looking piece of stone.
- 

CORNICE 6 CM
 A full and curvaceous feature for rustic to traditional kitchens, this edge provides life and style to a room.
- 

SEACLIFF 3 AND 6 CM
 The cleanest and simplest of edges, it is used most often in contemporary kitchens.
- 

ALPINE 3 CM
 This clean, simple edge is an alternative to "Seacliff". Providing a more traffic friendly option that still provides that "90 degree" look.
